

Pursuant to Act No. 283/1992 Coll., on the Czech Academy of Sciences, as amended, Act No. 341/2005 Coll., on public research institutions, as amended, and in accordance with the Statutes of the Czech Academy of Sciences dated 24 May 2006, the Czech Academy of Sciences hereby issues

**the Full Text of the Foundation Deed of
the Institute of Chemical Process Fundamentals of the Czech
Academy of Sciences
(in Czech “Ústav chemických procesů AV ČR, v. v. i.”)**

dated 28 June 2006 (English version dated 20 December 2006), as subsequently amended by Addendum No. 1 dated 30 June 2011:

I

(1) The Institute has been established by the resolution of the third session of the Presidium of the Czechoslovak Academy of Sciences (hereinafter the “CSAS”) held on 30 January 1960 under the name “Ústav teoretických základů chemické techniky ČSAV” (the Institute of Chemical Process Fundamentals of the CSAS). Under section 18 (2) of Act No. 283/1992 Coll., the Institute became an entity within the Czech Academy of Sciences as of 31 December 1992. By the resolution of the Academy Council of the Czech Academy of Sciences dated 22 June 1993, the Institute was renamed “Ústav chemických procesů AV ČR” (the Institute of Chemical Process Fundamentals of the Czech Academy of Sciences), effective from 1 July 1993.

(2) Under Act No. 341/2005 Coll., the legal status of the Institute of Chemical Process Fundamentals of the Czech Academy of Sciences was transformed from a state contributory organisation into a public research institution (abbreviated in Czech as “v. v. i.”) from 1 January 2007.

II

(1) The Institute of Chemical Process Fundamentals of the Czech Academy of Sciences (hereinafter the “ICPF”) is established for an indefinite period as a legal entity, identification number 67985858, headquartered in Prague 6, Rozvojová 135, postal code 165 02.

(2) The founder of the ICPF is the Czech Academy of Sciences, an organisational body of the state, identification number 60165171, headquartered in Prague 1, Národní 1009/3, postal code 117 20.

III

(1) The purpose for which the ICPF has been established is to carry out scientific research in the field of the theory of chemical processes, to contribute to the utilisation of its research results, and to provide the research infrastructure.

(2) The principal activity of the ICPF is scientific research and development in the field of the theory of chemical processes, particularly in the disciplines such as chemical engineering, physical chemistry and bioengineering, focused especially on chemical and statistical thermodynamics, separation processes, catalysis, reactor engineering, applied organometallic chemistry, multiphase chemical reactors and bioreactors, biotechnologies and environmental process technologies as well as on the laser-initiated or laser-accelerated or microwave radiation- enhanced chemical reactions, and on the processes of the formation and transformations of aerosols. The ICPF contributes to raising the level of knowledge and education and to utilising the results of scientific research in practice. It acquires, processes and disseminates scientific information, issues scientific publications (monographs, journals, proceedings, etc.). It provides scientific assessments, professional opinions and recommendations and consulting and advisory services. In the fields of its scientific activity, the ICPF carries out analyses, testing and measurements of characteristic properties of chemical substances and materials, develops software and special and unique scientific instruments, equipment as well as components for instruments up to the level of prototypes, testing and pilot plants. In cooperation with universities, the ICPF carries out doctoral study programmes and provides training for young scientists. Within the scope of its activity, the ICPF promotes international cooperation, including the organisation of joint research projects with foreign partners, participation in exchange programmes for scientists and the exchange of scientific information, as well as the preparation of joint publications. The ICPF organises scientific meetings, conferences and seminars at the national and international levels and provides the infrastructure for research. It pursues its aims both independently and in cooperation with universities and other research and professional institutions.

(3) The other activity of the ICPF includes providing advisory services, testing, measurements, analyses, control, applied research and development, training activities, development and production of special equipment and parts of equipment and development of software, this all in the fields of scientific activities of the ICPF. Conditions of the other activity are determined by Act No. 341/2005 Coll. and the respective entrepreneurial authorisations. The total extent of the other activity may not exceed 20 percent of the working capacity of the ICPF.

IV

(1) The director, the board and the supervisory board are the bodies of the ICPF. The director is the statutory body of the ICPF and is entitled to act as a deputy for the ICPF.

(2) The basic organisational units of the ICPF are scientific departments and laboratories responsible for research and development, and service units responsible for provision of the infrastructure.

(3) The detailed organisational structure of the ICPF is regulated the by rules of organisation issued by the director after being approved by the Board.

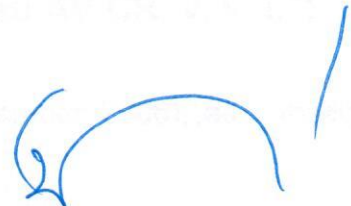

V

This Foundation Deed shall be effective as of 30 June 2011.

Prof. Ing. Jiří Drahoš, DrSc., dr. h. c.
President of the Czech Academy of
Sciences

The resolution of the twentieth session of the Academy Council of the Czech Academy of Sciences held on 15 July 2014 changed the official English translation of the name from the former "Academy of Sciences of the Czech Republic" to "Czech Academy of Sciences" as of 1 January 2015.
